|   | 3       | 2023-08-14 | Field 8 Currency; added if blank EUR will be used   |  |  |

This document describes how to construct files with comma-separated payment records. Please note that it is possible to instruct both domestic payments and transfers abroad in the same payment file.

The file must contain one line for each payment. The fields must start and finish with quotation marks (") and the fields must be separated by a comma (,). Quotation marks can not be used in the individual fields.

Each field has no fixed length, which means that you do not have to add spaces or zeros in front or behind the content in a

field. In the field description, a (maximum) length is described for each field.

If a field is required, it must be filled. An empty field must be indicated with two quotation marks (""). When there are no more required fields in a payment, you can leave out the rest of the fields.

In the format field AN means Alphanumeric and N means Numeric

The required field can have the following values:

- Y = Yes (Required)
- N = No (Optional)
- C = Conditional (means that the field is required if the conditions in the description are met)

| Field no.: | Field name       | No. of Char. | Format: | Required | Description                                   |
|------------|------------------|--------------|---------|----------|---|
| 1          | Command          | 8            | AN      | Y        | Denotes the type of payment: CMII.            |
| 2          | Version no.      | 3            | AN      | Y        | Always 1.0                                    |
